-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. In view of the newly cited art of record and the rejections set forth below, the prior indication of allowability of certain claims is hereby withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 22-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of claims 22-25 set forth a specific item that is to be carried by the claimed system. None of the claims however, provide any structural limitation of these items. The structural meets and bounds of these items therefore cannot be determined to any degree of specificity and therefore renders the claims indefinite.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before

Art Unit: 3727

the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1, 3-5, 9, 11-21, 26 and 28-34 are rejected under 35 U.S.C. 102(e) as being anticipated by Sheppard 6,645,093.

Sheppard teaches a substantially rigid load bearing system comprising a central rib 11, 25, a stabilizing arm 15b, 38, an opposing arm 15a, an attachment means 50, a support strap assembly 52a, 52b, and a dorsal strap 15c.

6. Claims 1, 3-7, 9-11, 15, 16, 19-21, 27 and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee 4,963,904.

Lee teaches a substantially rigid load bearing system comprising a central rib 52, an adjustable stabilizing arm 3, 4, an adjustable opposing arm 6, an attachment means 42 and padding attached to the stabilizing and opposing arms.

7. Claims 1, 3-11, 15, 19-21, 27, 28 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Sheppard 5,746,705.

Sheppard teaches a substantially rigid load bearing system comprising a central rib 3, an adjustable stabilizing arm 10, an adjustable opposing arm 7, an attachment means 9 and padding attached to the central rib, stabilizing and opposing arms 17.

Response to Arguments

8. Applicant's arguments with respect to claims 1 and 3-34 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
